Dear Sir:

In response to the Restriction Requirement dated August 13, 2008, Applicants provisionally elect Group 1, Product Claims 1-8, with traverse.

It is respectfully submitted that, as admitted by the Examiner, all claims include common technical features of, at least, a pre-formation apparatus comprising a film feeder, a pre-formation section with upper and lower clamp members, a retractable section in which the device determines with the pitch and meandering detection sections if a film being processed is correctly aligned in the apparatus. If a claim of Group 1 is allowable, Groups 2 and 3 would be rejoined and also be found to be allowable.

Applicants reserve the right to file a divisional application covering the subject matter of the non-elected claims.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 18-0013, under Order No. KKI-0106 from which the undersigned is authorized to draw.
